Thursday March 25th 10PM-Midnight EST (2-4AM GMT) Bruise Your Body Breaks will have a very special guest DJ and producer by the name of LUCAS. Don't miss it!

Lucas began the love for Electronic Dance Music at roughly the age of 11 when he was given his first keyboard that had its own beat sequencer. From there he began composing basic beats and familiarizing himself with the structure of electronic music.

Fast forward a few years and it was in college where he heard breakbeats and progressive music for the first time and was hooked.

Purchasing turntables in 2002, he aspired to have more involvement with the music and to eventually produce his own original material.

Joining Orbital Grooves in January of 2003, he ran a weekly show called LightSpeed for more than 3 years. In mid 2006, he retired the weekly show and began picking up random slots to interact more with different audience groups and djs.

Musical influences include his father who is a guitarist of 30 years and progressive artists such as Hybrid, Nubreed, Luke Chable, Greyarea, Burufunk, Infiniti, and the classic breaks artists like Icey, Sharaz, Fixx, and more.

Please visit <http://www.lucasamartin.com> for more information as well as free mixes and tons of pictures.

Lucas launched IQ Sounds (IQS) in January of 2007. IQS is an independent record label whose goal is to change the way that society views EDM. Another goal of the label is to provide a venue for fellow underground artists to gain exposure and recognition. You can visit IQ Sounds at <http://www.iqsounds.com>
