

## BZRNT - Moon Dance \*\*\*OUT NOW ON BANDCAMP!!!\*\*\*

Posted by toastandjamrecordings - 2024/01/18 19:20

---

There's nothing quite like a syncopated vintage sounding Juno synth laying on top of a super funky breakbeat. We continue to roll with BZRNT because he has fully mastered this combo and he always manages to unearth fresh vocals to round out the jam. Moon Dance does exactly that, and when the sawtooth bass line starts dancing around, we have no choice but to join right in.
