

Dopamine - Homecoming Remixed OUT NOW ON BANDCAMP!

Posted by toastandjamrecordings - 2024/01/18 19:23

We've got another heavyweight remix package for you here with the legendary Rennie Pilgrem and Myagi giving the business to Dopamine's Homecoming. Rennie lays down some fantastic acoustic drums and frighteningly funky synths for his reworking and the result is a truly unique breakbeat jam. Myagi teases out the tech-funk elements with his remix, giving us loads of lfo'ed synths and a progressive bass line that expands on Dopamine's original musical composition. The result is a remix that takes on a life of its own, which we obviously love. Once again, you're going to have to give both a proper spin!
