

Can't get in to my profile.

Posted by DJ_ROCKIT - 2013/09/10 21:33

Yo Yo, I am having problems getting in to my profile.

Is anyone else?

Wanted to change my signature and I couldn't do it. Sent me to an error page.

Yes, tried again just now. This is unrelated, but since you replied Twinkdogg. I am trying to find a viable download of your Electro Mix from 10-1-08, it was sick! Any help would be greatly appreciated! =)

Wino, thanks!

Still getting the error, tried logging in and viewing profile just now.

Friended Clint on Facebook, sent him a PM on 12/16/2013, no response. Not gonna harass him about it anymore.

We have been working on some things on the site that are not finished, apologies for the delay. We will get this fixed for you. Will you send screenshot of the error along with your user name and password to winowarrior@nubreaks.com please? Thanks!
