

Entering an unexplored world, the wanderers are open to any knowledge. The river of time carries them and drifts ashore. They will be able to distinguish between the reality and illusions only by keeping moving—inward—to enlightenment. And only breaking the shackles of past deeds, they will be able to overcome the vicious circle and upgrade to the next level. That is the way to freedom.

For all loyal fans of the genre, Windom R has prepared a new EP in his own style. Five distinctive break tracks: references to the old school and the pulse of the era, depth and atmosphere... You will find all this in a new release by Calligraphy.
