

Hold onto your hats people, because socks are about to be blown!

Sub Element Recordings next release sees A2B2 return with his signature Psychedelic Drum & Bass sound.

Quasar is dark, deep, psychedelic and packs a punch! If you think of - Alien Vs Predator Vs Mike Tyson, then you might get close!

On the remix we have the prolific Hungarian producer Kelle, who strips it back with a more original DnB groove - still keeping it trippy and psychedelic. Stunning!
